DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Senner et al. (US 6,355,177). Senner et al. explicitly teach a refrigerator comprising a main body having at least one refrigerator compartment (Figure 1), a door to open and close an opening of the refrigerating compartment (Figure 1), a water dispenser provided on the door to supply drink water (Figure 1, item 50), a drawer provided inside the refrigerating compartment (Figure 1, item 39), a filter assembly (Figure 1, item 55) disposed on the rear surface of the refrigerating compartment behind the drawer (col. 2, lines 12-16; col. 4, lines 19-25), and a water tank provided behind the drawer with the filter assembly (col. 4, lines 61-63). It should be noted that in the cited lines, Senner et al. explicitly teach the water filter or water tank to be located anywhere "at a central rear portion of fresh food compartment (8)," which includes the refrigerator drawers.

Allowable Subject Matter

4. Claims 4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
